DEC 18	10:00-17:00	Réunion	Saint Denis	Collège De Bois De Nèfles Chemin des Franciscéas, 97493 Saint-Denis, Réunion	

Biosonification Workshop — Biosonification Workshop — The initiative combines electronic music, ecology, and music informatics to create an immersive and interactive connection with endemic plants of Réunion, transforming their vitality into enriching sonic and visual experiences. The experimental vibrotanica box device, developed since late 2019, converts plant biodata into sound through sensors and specialized software. The school-based component, Vibrotanica dann lékol, aims to educate students through biosonification workshops and musical creation activities, culminating in performances showcasing student compositions.

NOV 17	10:30-15:30	Réunion	Entre-Deux	École Les Alizés 110 Rue Defaud, 97414 Entre-Deux, Réunion	

Biosonification Workshop — Biosonification Workshop — A distinctive initiative designed to reconnect with the plant world and raise awareness about the richness of Réunion's flora during the science festival with students from École Les Alizés in Entre-Deux.

NOV 10	10:00	Réunion	Saint Pierre	Domaine Vidot Chemin Cyriaque Cadet, 97410 Saint-Pierre, Réunion	

Biosonification Workshop — Biosonification Workshop — The collective Nout plant i chant demonstrates how to make plants sing by capturing their vibrations with sensors to create melodies. This immersive experience aims to reconnect participants with the plant world and raise awareness about Réunion's flora diversity. Students from Cilaos, Le Baril, Grand Coude, and Montvert les Hauts participate in workshops exploring the connection between the botanical world and musical expression. Workshop components include: Atelier Zilien - a multidisciplinary session combining theater, music, singing, and herbalism teaching participants to perceive aromatic plants through sensory descriptions and emotional responses; Atelier Robinson - focuses on graphic transcription relationships between botany and music using plant-based inks on paper, creating visual representations inspired by natural sounds; Atelier J3ZZ - introduces biosonification technology (patches, synthesizers, and instruments) that capture plant vibrations, allowing children to respectfully observe and listen to plants; Musical Jam - a 30-minute collective performance concluding with guided relaxation.

NOV 09	10:00	Réunion	Saint Joseph	Forêt des Nuages Chemin Assing, 97480 Saint-Joseph, Réunion	

Biosonification Workshop — Biosonification Workshop — The collective Nout plant i chant demonstrates how plants can sing through sensors that capture their vibrations and convert them into melodies. This immersive experience reconnects participants with plant life while raising awareness about Réunion's flora diversity. Students from Cilaos, Le Baril, Grand Coude, and Montvert les Hauts participate in this unique initiative. Key workshop components: Atelier Zilien combines theatre, music, singing, and herbal knowledge in a warm atmosphere. Participants learn to sense aromatic plants and express their reactions through colors and emotions, developing group cohesion and emotional awareness. Atelier Robinson explores botanical and musical transcription through live illustrations, showing connections between leaf structures and musical composition. Participants create artwork using plant-based inks on paper, inspired by plant sounds. Atelier J3ZZ introduces instruments for listening to plants, including sensors, synthesizers, and the Vibrotanica box. Children observe and respectfully interact with equipped plants in small groups. Musical Jam - group session with live music performance, concluding with guided relaxation.

NOV 07 10:00 Réunion Saint-Philippe

Bitasyon Bio Souffleur d'Arbonne
18 Impasse Surcouf, 97442 Saint-Philippe, Réunion

Biosonification Workshop — Biosonification Workshop — The collective Nout plant i chant demonstrates how to make plants sing by using sensors to capture plant vibrations and convert them into melodies. This initiative aims to reconnect people with the plant world and raise awareness about the richness of Réunion's flora. The immersive experience involves students from Cilaos, Le Baril, Grand Coude, and Montvert les Hauts. Workshop components: Atelier Zilien combines theater, music, singing, and herbalism to help participants develop sensory awareness of aromatic plants and express responses through colors and emotions. Atelier Robinson teaches graphic transcription connecting botanical and musical forms, with participants creating ink drawings using vegetable-based materials on large sheets. Atelier J3ZZ focuses on discovering plant-listening instruments including patches, synthesizers, and the vibrotanica box. Atelier Musical concludes with a 30-minute jam session and relaxation exercise.

NOV 06 10:00 Réunion Cilaos

Jardin de Betoum
Cilaos, 97413 Réunion

Biosonification Workshop — Biosonification Workshop — The workshop introduces participants to biosonification through the Nout plant i chant collective, which uses sensors to capture plant vibrations and convert them into melodies. This immersive experience aims to reconnect people with the plant world and highlight Réunion's botanical diversity. The event features three interactive workshops: Zilien Atelier combines theater, music, singing, and herbal knowledge in a warm atmosphere. Participants learn to observe aromatic plants and express sensory experiences through colors and emotions while developing group cohesion and vocal techniques. Robinson Atelier explores graphical transcription connections between botany and music through direct illustrations. Children create botanical portraits using plant-based inks on paper, responding to sounds produced by sonified plants. J3ZZ Atelier introduces instruments for plant listening, including patches, synthesizer, and vibrotanica box. Children respectfully observe equipped plants and share descriptive words about their experiences. The program concludes with a collaborative jam session and relaxation exercise.

JUL 01		Hungary	Taliándörögd	Völgykavalkád	

The Last Drops — The Last Drops performed at the Völgykavalkád village festival in Taliándörögd. In 2009, the long-running Művészetek Völgye (Valley of Arts) festival in Kapolcs was cancelled for the second consecutive year due to financial difficulties (2008 had seen a reduced 'Bűvészetek Völgye' edition). In its place, the villages of the valley — Kapolcs, Taliándörögd, Vigántpetend and others — independently organised their own substitute festivals, collectively known as Völgykavalkád, running across late July and early August. Date is approximate — exact date to be confirmed.
